VOL. XV.

CLAY CITY, KY., THURSDAY, OCTOBER 20, 1910.

NO. 42

Mt. Sterling Court.

Monday was October Court day and there was an immense crowd in the city—the largest that has been here on a similar occasion in years. There was 10,000 head of cattle on the market, with some estimating the number as high as 12,000. Trade was brisk all day, the scales at the pens being unable to weigh as fast as the cattle changed hands. The quality of most of the stuff sold was medium but prices were stiff. The best 1,000 pound steers brought from \$5 to \$5.10; yearlings at \$4.50 to \$5, according to quality; heifers from \$3.50 to \$4.10; cows from \$3.25 to \$4; bulls from \$3 to \$3.75. There was the largest run of cattle for several months and the outlook for the continuance of good prices is excellent.—Mt. Sterling Gazette.

New Poultry Business.

Thos. Shimmfessel and Geo. G. Fletcher have formed a partnership for the purpose of entering the produce business. They have rented Mrs. Littlepage's business house which will be their headquarters. These boys, while young, are both persevering and deserving. We wish them great success in their new venture as such a firm is badly needed in Clay City.

Protracted services at the Clay City Christian Church will begin Saturday night. Pastor Z. Ball assisted by local talent will do the preaching.

The death rate in the U. S. is shown to be only 15 per 1,000. But this will soon increase if aviation and automobile cup races continue.

Another republic, Portugal, has swung into our ken—May the tribe increase.

New Factory for Clay City.

George Tomlinson, a former lumberman of this city, but more recently of Winchester, has about completed a hoghead factory at Brodhead-Garrett's planing mill and will begin operating in a few days. The factory will be one of the largest in the State having a capacity of 350 hogheads per day. The output of the plant for some time in the future has already been sold. Mr. Woods, of Winchester, will move to this city and have charge of the business.

The Burley Society has failed in their pool of the 1910 crop, and as a consequence tobacco is about four cents a pound cheaper than last year and a great deal slower sale.

Joe Jewell and Jas. G. Rogers, Johnny Baber and Geo. W. Clark have returned from Louisville where they were attending the Masonic Grand Lodge.

Mr. and Mrs. Everett Burgher, of near Winchester, have returned from a pleasant visit to relatives and friends on Hardwick's creek.

The protracted meeting at the Methodist church on Hardwick's creek last week resulted in several additions to the church.

B. F. Ledford bought several head of hogs from various persons in this city at nine cents per pound.

R. W. Garrett bought in Mt. Sterling Monday a bunch of smooth yearling steers at \$4.50 and \$4.60.

Miss Maud Fletcher visited her aunt, Mrs. Rachel Barrow, near Hedges station two days this week.

W. D. McCoy, of Sardis, Miss., is visiting friends in the city.

New Paper at Jackson.

The Jackson Democrat is being prematurely issued from a job printing outfit. While the size is necessarily small on account of the available outfit, the paper is full of life and ginger, and if the forerunner indicates the character of the fully developed Times, we may expect to see things doing in the Breathitt capital soon. The paper was forced unpreparedly to enter the field on account of the independent News siding in with full Republican support. The paper, when it reaches its normal size, will be six columns, and eight pages. R. C. Musick and L. T. Hovermale are editors. The Times has our very best wishes for success.

Indicted for Bribing Witnesses.

Charles Fortner, formerly of this county, who a time back killed his neighbor, Tandy Haggard, in Clark county, and whose trial for the same was transferred to Madison county where he was acquitted this Spring, has been indicted by the Madison Circuit Court for bribing witnesses. One of the witnesses he is alleged to have bribed was convicted of swearing falsely in the case and is serving a term in the penitentiary.

Daniel-Tipton.

Mr. Oscar Daniel was married Saturday afternoon at Stanton to Miss Henrietta Tipton. They left on the west bound train that afternoon for a brief stay with relatives at Winchester and Lexington. The bride is a sister to Mrs. D. R. Daniel of this city and two years ago attended school here.

As this spring was a most remarkable one so is this fall remarkable. Oct. 20th and no frost yet. Grass is green and a growing every day. The set backs of spring are now fast being fast overcome.

Mr. and Mrs. Jas. G. Easter, Mr. and Mrs. A. P. Johnson and D. R. Daniel were among the Odd Fellows from Clay City to attend the Grand Lodge meeting at Lexington last week.

P. Y. Drake, who a few years ago moved from this county to Winchester, is one of the promoters of the Winchester Grocery Company which is organized as a mutual association by retail merchants.

The quail crop promises to be good this fall, though one is daresome to be among them until November 15.

If You Have Any Doubt of the merit of Dr. Bell's Pine-Tar Honey one bottle will remove that doubt and your cough at the same time. Look for the bell on the bottle. It is the genuine.

Ladies and Misses don't fail to see our new Fall and Winter line of "Queen Quality and "Boston Favorite" shoes, we have them in Swede, Patent leather, Gun metal, Dull kid and plain kid—in both button and lace.

Stanton.

When Applied Two Ways.

"I don't know much about the tariff, but I do know this much, that when we buy manufactured goods in foreign countries, we get the goods and the foreigner gets the money. If we buy manufactured goods in this country, an American gets both the goods and the money."—Abraham Lincoln.

The above item has gone the rounds of the Republican press until the article makes them look as silly as the argument will appear when a little bit differently applied. They used to make in Powell county, wagons, plows, harness, boots and shoes, clothing, table linens, tanned our own leather and made many other articles, and when we did it, we had both the goods and money in Powell county. But further, why should we have a law to really almost compel us to pay more for what we consume than the foreigner pays for the same goods. American manufacturers can make goods as cheaply as any place in the world. They do it but the consumer on this side of the water doesn't get the benefit of it.

"Promising" Langley will find that the people of Eastern Kentucky are not such simpletons as to rely solely upon what he promises to do for them. They have been watching his career in Congress and will not overlook his record of voting almost every thing the privileged interests wanted against what the people wanted, for the sake of a few promises of what he will do for individuals. The people now are demanding men who have the courage to stand out boldly for the right, even against the power of the patronage giving trusts and interests.—Jackson Democrats.

Roosevelt was asked by Langley to come over into the Tenth to help fight Byrd, being himself unable to man him, and Senator Bradley backing down and refusing to divide time with Byrd at Pikeville last week. Roosevelt writes Langley and says, "Langley I am for you from top to bottom," but he couldn't come. He went to St. Louis and took a ride in an aeroplane instead. Roosevelt is a sharp old coon he knew if our own mountain boy Floyd Byrd got hold of him he would eat him up blood raw.

Champ Clark will have no opposition for the Speakership. The prospect of beholding him driving a pair of Missouri mules down Pennsylvania avenue has unified the Democratic membership of the House of Representatives.

You may not like the fall fashions, but, after all, the fall girls look pretty whatever they wear.

The New York elephant is labeled Progressive in front and Stand Pat behind.

The best way to help your town grow is to crow.

President Taft during the first half of his administration has been called upon to appoint a larger number of Justices of the Supreme Court of the United States than any other President in a similar period. In fact, there have been but few Presidents that during an eight year term have filled so many vacancies as have fallen to the lot of President Taft.

If the President is really in sympathy with income tax he will appoint a court that will decide this law legal. The Times assures its readers that his court will not uphold the law. We have seen so much of Taft we can't believe him in sympathy with the poor people.

President Taft and all of the Republicans know that the Democrats are going to sweep the country from Maine to California and from Michigan to Texas in the election next month. They are also very much afraid that the same tidal wave will be strong enough to sweep into the White House a Democratic President two years hence. The extension of Civil Service is to cover and protect Republican office holders against removable by a probably Democratic President.

Langley says Byrd is dodging him. Yes, we heard about that a time or two and we think he should dodge him oftener as it is too bad to knock John out of making good speeches which he had advertised to make. He should wait until John makes his speech and not go into a town and so embarrass John that he can't talk to a crowd waiting so eagerly to hear some more of John's promises.

With the interstate commerce report showing that the railroads earned some \$27,000,000 extra profits in June and had to stand only \$25,000,000 extra operating expenses, it is hard for a layman to appreciate the necessity for the proposed increases in freight rates.

When a big man steals from the government and is accidentally sent to the penitentiary he is soon pardoned, as were four former employees of the government which were convicted in connection with the sugar steal. It will be remembered that it was found out that recently the sugar trust was stealing millions from the government in the way of short weights, but the government weighed the sugar, thus its employees were responsible, though it was a known fact that they were hired to do this by the trust. The trust which prompted the steal was found not guilty, four of the employees were convicted, but were recently pardoned by Taft. What does this look like to a man up a tree. Wonder how much the sugar trust put into the Republican campaign fund. This is an important question.

Failed Again.

Langley failed to make his appearance at West Liberty, where he was to have shared the time of Byrd in addressing the voters of Morgan county, October 8th. This is the second time he has failed to keep his appointments to speak with his opponent, Mr. Byrd. Has he lost his audacity and is ashamed to stand beside an honest man and face the people who have too often been deceived by his hypocrisy, or has he foreseen that his defeat is inevitable and that his efforts to reply to the charges made against him by Byrd are futile.—Elliott County Democrat.

Vital Washington News.

Thodore Roosevelt's star of destiny is falling!

While he was in the South dickering for the support of Republican delegates to the 1912 convention, a vigorous movement was started among the "genuine" progressives of the West and Middle West looking toward the withdrawal of all support from the former president.

Some of the leaders of the Congressional delegation of progressives quietly talked the situation over and decided not to permit Roosevelt to run away with the leadership of the national progressive movement. If necessary, to prevent the ex-president from using the progressive movement for his own personal advancement, these real progressives will publicly repudiate Roosevelt. They will direct public attention to the gross duplicity Roosevelt practiced on the public by proclaiming himself a progressive and then straightaway turning about and allowing the New York state convention—over which he had absolute control—to adopt a platform indorsing the Payne-Aldrich tariff jugglery and the reactionary Taft administration.

The New York platform squarely describes the Payne-Aldrich law as a fulfillment of Republican promises, because it states

was an average reduction of all duties of 11 per cent., which, if true, would constitute revision downward.

This is in contrast to the Wisconsin Republican platform which states unequivocally that "the Payne-Aldrich tariff is not a compliance with the pledge of the Republican party."

LaFollette, Clapp, Bristow, Cummins and Dolliver are on record as saying the Republican promise of downward revision was not carried out. Therefore if Roosevelt was right, the progressives who declared otherwise are members of the Ananias club, which they emphatically deny, and which the public does not believe.

The Roosevelt-made platform contains still another paragraph which makes T. R. impossible as leader of the genuine progressives in 1912, to-wit: "We enthusiastically endorse the progressive and statesmanlike leadership of William Howard Taft."

The genuine progressives "enthusiastically" do not indorse the Taft administration. Progressives like LaFollette condemn Taft for having filled his cabinet with representatives of the special interests; for having indorsed Cannon as another Lincoln, Aldrich as the greatest living financier and the tariff law as the best tariff bill ever passed; and last but not least, for having throughout his administration sought counsel from men like Aldrich, Guggenheim, Stephenson, Dalzell and Fordney, while at the same time refusing to give even respectful notice to the suggestions of progressive Republicans.

Through indorsing the tariff and Taft, Roosevelt has queered himself with the progressives. They will not permit him to enter the 1912 progressive movement, much less to bring in with him Mr. Taft and Elihu Root, the messenger boy of Wall street.

The Republican party has been in control of the government for practically fifty years. Just previous to every election in that time a favorite deception of the leaders was to inform the public that in the event of Democratic success, securities of all kinds would depreciate in the markets,

accomodations would be withdrawn from the bankers of the country and disaster would surely follow. This trick has been worked for all that it is worth, and it can not be denied that it had its influence upon the voters, and many an election was carried thereby by the Republicans. Just after the recent election in Maine, when the Democrats carried the state by an overwhelming vote, all legitimate stocks, bonds and other securities at once rallied from sluggishness and depression and gained a notable appreciation. Not only the masses but the business interests now distrust the Republican organization. It has been clearly proven the Republican organization has been worked for almost half a century against the interests of the people in behalf of the money trust and Big Business. The Democratic party is not an enemy of the legitimate business interests, and the public as never before now realizes it.

"If our prohibitive tariff were made more competitive, if it were actually lowered," declares the Massachusetts Democratic platform, "more goods would be imported, prices would fall and yet the revenue would increase. We demand the removal of taxes upon foodstuffs and other necessities of life, a tariff low enough on all manufactured articles to prevent the control of our market by the trusts and to impose the check of competition upon inordinate profits of capital."

"Some men have said we passed a good tariff law," said Senator Cummins recently. "I don't think so. Leaders of the Senate and House deliberately repudiated the Republican platform and revised the tariff in the interest of the manufacturers and big corporations and not in the interest of the American public. Whenever the American people have opportunity to pass judgment on the tariff bill they will consign the men who made it to eternal infamy."

The overshadowing question in this campaign is the cost of living. The workingman, the clerk, the salaried teacher and the small tradesman can no longer bring

up his family in reasonable comfort. Republican tariffs and policies of extravagance have increased the cost of food, clothing and shelter beyond endurance.

Roosevelt beat Jim Sherman for chairman of the New York Republican convention, but if Jim will keep cool and watch he will behold the most inspiring collapse of political furniture in November that New York eyes ever gazed upon.

"I have no defense to make of the Payne law because it needs none," says Mr. Cannon. We move to amend by substituting "admits of" for "needs".
